

MEMORANDUM

To: Frank J. Rogers, County Administrator FJR
From: Clifton M. Tweedy, Deputy County Administrator
Subject: AGENDA ITEM – Highway Matters
Date: April 24, 2023

BACKGROUND:

Each month staff will prepare this report to update the Board on the status of previously identified highway issues. Items requiring Board action will be identified in a separate agenda item under Highway Matters.

DISCUSSION:

Supervisor Shockley - Requested signage warning drivers of the construction work at the Waterlick Road/Timberlake Road intersection and when Construction would be completed.

Supervisor Hardie - A citizen raised a concern about Depot Road and a section that may be getting ready to fall away because of water damage. In the bottom there is a sharp curve, where repair has been done before, but it is getting worse again and they fear it will wash out or give away eventually. There is also a concern about some concrete close to the side of Depot Road that needs to be picked up.

Pending Matters:

Supervisor Hardie – Asked if changes could be made in the vicinity of the crosswalk in front of the Historic Courthouse. *VDOT is conducting a review of all the pedestrian crossing in Rustburg to determine if changes need to be made or addition measures are warranted. A meeting will be scheduled in the near future with County Officials.*

Supervisor Cline – Requested VDOT to continue to monitor the intersection of Route 460 and Doss Road. There were recently two more accidents at this intersection. *VDOT is looking to install a mountable curb to provide greater separation between the travel lanes and the through lanes.*

Supervisor Shockley – Requested a speed study along Leesville Road from Leesville Estates to the City Limits due to increased development along the corridor. This request was supported by Supervisor Brown. *VDOT traffic engineering is working on a study.*

Informational Items:

Included in the consent agenda there is a request to add two private road projects to the CIP, so they will be eligible for Revenue Sharing applications.

There is a public hearing for the annual Six Year Road Hearing process later in the meeting.
