Division B. County Fire Marshal.

Sec. 10-11. County Fire Marshal to be appointed; removal for cause.

(a) In order to safeguard the lives of the citizens of Campbell County and their property from the hazards of fire or explosion and to provide for enforcement of the Statewide Fire Prevention Code, the Board of Supervisors of Campbell County hereby finds and declares it necessary to appoint a local Fire Marshal for Campbell County. The office of the Campbell County Fire Marshal shall be classified as part of the Campbell County Department of Public Safety.

(b) The Campbell County Fire Marshal shall be appointed by the Board of Supervisors upon the recommendation of the County Administrator. After permanent appointment, the County Fire Marshal shall not be removed from office except for cause after having been afforded a full opportunity to be heard on specific and relevant charges by and before the Board of Supervisors of Campbell County.

For state law authority, see VA. CODE ANN. §27-30 (Repl. Vol. 2009), and SFPC §105.1 (2006).

Editor's notes.—The Statewide Fire Prevention Code, hereinafter referred to as the "SFPC," is a state regulation cooperatively developed by the Virginia Fire Services Board and the Virginia Board of Housing and Community Development. Its provisions are based on a nationally recognized model code published by the International Code Council, Inc. and fire protection and prevention standards published by the National Fire Protection Association. The SFPC is part of the Virginia Administrative Code (VAC), the official compilation of state regulations. SFPC provisions are found in the VAC at 13VAC5-51-11 et seq., on file with the Virginia Code Commission, wherein both VAC section numbers and the model code numbering system are used. References to the SFPC in this chapter utilize the model code numbering system. The current version of the SFPC

incorporates by reference the 2006 edition of the International Fire Code, and became effective on May 1, 2008.

Enforcement of the SFPC by local government is optional. Any local government may enforce the SFPC following official action by the governing body. The State Fire Marshal is authorized to enforce the SFPC in cooperation with any local governing body and in those jurisdictions in which the local government does not enforce the SFPC, and may establish such procedures or requirements as may be necessary for the administration and enforcement of the SFPC in such jurisdictions. See VA. CODE ANN. §27-98 (Cum. Supp. 2010) and § 27-99 (Repl. Vol. 2009) and SFPC §§104.1, 104.1.1, 104.2, and 104.3 (2006).

Notification to Virginia Department of Housing and Community Development required. SFPC §105.1.2 requires the appointing authority for the locality (the Board of Supervisors in Campbell County) to notify the Department of Housing and Community Development and the State Fire Marshal's Office within thirty (30) of the appointment or release of the permanent or acting fire official.

[THE DECEMBER 20, 1999 ACT adopted this section.]

[THE DECEMBER 3, 2001 AMENDMENT deleted “applicable provisions of” preceding “the Statewide Fire Prevention Code” in (a).]

[THE DECEMBER 6, 2004 AMENDMENT, in the second sentence in (b), added “After permanent appointment” at the beginning of the sentence and substituted “after having been afforded a full” for “and after full.”

Sec. 10-12. Qualifications; certification, and training requirements for County Fire Marshal and other personnel.

(a) The County Fire Marshal and other personnel appointed pursuant to this article shall be selected upon the basis of education or experience in administering laws and regulations designed to prevent and eliminate hazards to life and property arising from fire.

(b) The County Fire Marshal and other personnel appointed pursuant to this article and having enforcement responsibility under the Statewide Fire Prevention Code (SFPC) shall satisfactorily complete the appropriate certification and periodic training requirements for such personnel prescribed in the SFPC. Other personnel appointed pursuant to this article shall meet the training requirements prescribed from time to time by state law or local ordinance.

For general state law authority, see VA. CODE ANN. §27-30 et seq. (Repl. Vol. 2009). See also SFPC §§105.1.3, 105.2, 105.3, 105.3.2, and 105.4. (2006). For similar state law, see VA. CODE ANN. §9.1-206 (Cum. Supp. 2009).

[THE DECEMBER 20, 1999 ACT adopted this section.]

[THE JULY 2, 2001 AMENDMENT deleted former subsections (b), (c), and (d) detailing specific training and certification requirements of the SFPC and rewrote the provisions in more general terms in revised (b).]

Editor's note: SFPC §105.3.1 (2006) requires that the fire official shall notify the Department of Housing and Community Development within sixty (60) days of the employment, contract or termination of all technical assistants for enforcement of the SFPC.

[THE DECEMBER 20, 1999 ACT adopted this section.]

[THE JULY 7, 2008 AMENDMENT inserted “technical” in the second clause of this section.]

CODE ANN. §27-32.1 (Repl. Vol. 2009), which property indicates the fire or explosion was intentionally caused.

Any person whose property is so taken and held may petition the Circuit Court of Campbell County or judge in vacation, for return of the property. The court may order restitution upon such conditions as are appropriate for preservation of evidence, including the posting of bond.

Sec. 10-25. Reserved.

Division C. Statewide Fire Prevention Code.

Sec. 10-26. Purpose and applicability; incorporation by reference of SFPC.

The purpose of this Division is to provide for statewide standards for local enforcement to safeguard life and property from the hazards of fire or explosion arising from the improper maintenance of life safety and fire prevention and protection materials, devices, systems, and structures, and the unsafe storage, handling, and use of substances, materials, and devices, including fireworks, explosives and blasting agents within the County of Campbell.

The Virginia Statewide Fire Prevention Code (SFPC) (2006 Edition), effective May 1, 2008, and as amended from time to time by the Virginia Board of Housing and Community Development, is hereby adopted as part of this article and incorporated by reference as a part of the Campbell County Code of 1988. Such incorporation by reference is specifically intended to include future

amendments to the SFPC and its accompanying standards, specifications, regulations, appendices, etc.

Pursuant to the provisions of VA. CODE ANN. §27-98 (Cum. Supp. 2010), the County of Campbell elects to enforce the Virginia Statewide Fire Prevention Code as written, with such regulations of local applicability as the Board of Supervisors of the County of Campbell may adopt from time to time in accordance with the provisions of VA. CODE ANN. §27-97 (Cum. Supp. 2010). Such administration and enforcement of the Statewide Fire Prevention Code shall be in accordance with the procedures or requirements promulgated under authority of this Division.

For state law authority, see VA. CODE ANN. §27-96 (Repl. Vol. 2009) and §27-97 (Cum. Supp. 2010), and SFPC §101.3 (2006). See also VA. CODE ANN. §1-220 (Repl. Vol. 2008) as to effect of incorporation by reference.

Editor's notes.— Purpose and scope of SFPC. The Statewide Fire Prevention Code, hereinafter referred to as the “SFPC,” is a state regulation cooperatively developed by the Virginia Fire Services Board and the Virginia Board of Housing and Community Development. Its provisions are based on a nationally recognized model code published by the International Code Council, Inc. and fire protection and prevention standards published by the National Fire Protection Association. The SFPC incorporates by reference provisions of the 2006 Edition of the International Fire Code (IFC), including its standards and appendices, to be an enforceable part of the SFPC, except where the Virginia Board of Housing and Community Development (BHCD) has deleted, changed, or amended IFC provisions and referenced standards to bring them within the scope of SFPC authority. Where conflicts occur between such changed provisions and the unchanged provisions of the IFC and referenced standards, the SFPC provisions shall govern.

SFPC as part of Virginia Administrative Code. The SFPC is part of the Virginia Administrative Code (VAC), the official compilation of state regulations. SFPC provisions are found in the VAC at 13VAC5-51-11 et seq., on file with the Virginia Code Commission, wherein both VAC section numbers and the model code numbering system are used. References to the SFPC in this chapter utilize the model code numbering system. The current version of the SFPC incorporates by reference the 2006 edition of the International Fire Code, and became effective on May 1, 2008.

More stringent local regulations authorized. The third paragraph of VA. CODE ANN. §27-97 (Cum. Supp. 2010) empowers local governments “to adopt fire prevention regulations that are more restrictive or more extensive in scope than the [State] Fire Prevention Code *provided such regulations do not affect the manner of construction, or materials to be used in the erection, alteration, repair, or use of a building or structure . . .*” [emphasis added]

[THE DECEMBER 20, 1999 ACT adopted this section.]

[THE DECEMBER 3, 2001 AMENDMENT rewrote this section.]

[THE DECEMBER 2, 2002 AMENDMENT inserted “including fireworks, explosives and blasting agents” in the first paragraph.]

[THE JULY 5, 2005 AMENDMENT inserted the new second paragraph.]

[THE JULY 7, 2008 AMENDMENT made minor revisions to the definition of “Fireworks” for syntax only.]

Sec. 10-27. Enforcement of Statewide Fire Prevention Code within Campbell County.

(a) The Campbell County Fire Marshal, appointed pursuant to §10-11 and §10-19 of this Code, is hereby designated to act as the enforcement agency for enforcement of the Statewide Fire Prevention Code in Campbell County.

(b) Pursuant to the authority of VA. CODE ANN. §27-98 (Cum. Supp. 2010), the Board of Supervisors of the County of Campbell is authorized to establish such procedures and requirements as may be necessary for the administration and enforcement of the SFPC in Campbell County. Accordingly, the Campbell County Fire Marshal is authorized to institute the enforcement procedures of the Statewide Fire Prevention Code ***upon discovery of an unsafe condition by such official or upon receipt by such official of information by official report, complaint, or otherwise concerning an alleged violation of the Statewide Fire Prevention Code or of this Article.***

For state law authority, see VA. CODE ANN. §27-98 (Cum. Supp. 2010) and VA. CODE ANN. §27-95 (Repl. Vol. 2009). SFPC §104.0 (2006), SFPC §106.0 (2006), and SFPC §110.0 (2006).

Editor’s note.- Enforcement of the SFPC by local government is optional. The State Fire Marshal is authorized to enforce the SFPC in those jurisdictions in which the local government does not enforce the SFPC. The State Fire Marshal shall also have the authority in cooperation with any local governing body to enforce the SFPC. See VA. CODE ANN. §27-98 (Cum. Supp. 2010).

More stringent local regulations authorized. The third paragraph of VA. CODE ANN. § 27-97 (Cum. Supp. 2010) empowers local governments “to adopt fire prevention regulations that are more restrictive or more extensive in scope than the [State] Fire Prevention Code *provided such regulations do not affect the manner of construction, or materials to be used in the erection, alteration, repair, or use of a building or structure. . .*” [emphasis added]

[THE DECEMBER 20, 1999 ACT adopted this section.]

[THE JULY 2, 2001 AMENDMENT inserted language beginning “in its entirety” and ending “(Cum. Supp. 2000)” in the first sentence of (a); redesignated (b) as paragraph (1) therein and substituted provisions concerning open burning, fire lanes, fireworks, and hazardous materials for provisions concerning unsafe conditions and open burning, and rewrote the former last sentence therein as present paragraph (2) in (b); and, in (c), inserted “and §10-19” and “such” and substituted “procedures or requirements established by the Board of Supervisors” for “guidelines” in the first sentence.]

[THE DECEMBER 3, 2001 AMENDMENT rewrote (a) and (b) to provide for enforcement of all of the SFPC, rather than designated provisions, and to provide procedures and requirements for enforcement; redesignated former (c) as present (b) in §10-28 and redesignated former (d) as present (c), deleting “portions of” preceding

“Statewide Fire Prevention Code” and substituting “in accordance with the provisions of this Division” for “designated by the Board of Supervisors for local enforcement.”]

[THE DECEMBER 2, 2002 AMENDMENT deleted former subsection (c) which had provided definitions now included in §10-26.1 of this Code.]

Sec. 10-28. Authority of Campbell County Fire Marshal; limitations thereof.

(a) The Campbell County Fire Marshal is authorized to investigate, or cause to be investigated, alleged violations of the Statewide Fire Prevention Code which he is charged to enforce *which may be brought to his attention by discovery, official report, complaint, or otherwise.* The enforcement procedures of the Statewide Fire Prevention Code shall be instituted by the Campbell County Fire Marshal and shall be administered in accordance with the procedures and requirements approved by the Board of Supervisors for the administration and enforcement of the SFPC.

(b) The Campbell County Fire Marshal shall have the authority prescribed herein to enforce the provisions of the Statewide Fire Prevention Code and of this Article in accordance with such procedures or requirements for administration and enforcement of the SFPC as may be established by the Board of Supervisors of the County of Campbell, and to exercise such other powers including, but not limited to, enforcement procedures and the system of administrative appeals as provided in Chapter 1 of the SFPC or by other provisions of state law or local ordinance, as such powers may be expressly granted to the local fire marshal or as may be necessarily or fairly implied therefrom or that are essential and indispensable to the implementation of this Article or of the SFPC.

(c) Nothing in this Article or in the Statewide Fire Prevention Code shall be construed to require the Campbell County Fire Marshal to make periodic inspections to ensure compliance with provisions of the SFPC.

(d) Upon discovery of an unsafe condition or upon receipt of information by official report, complaint or otherwise concerning an alleged violation of SFPC provisions, the Campbell County Fire Marshal is authorized to make an immediate investigation into the existence of such violation. Pursuant to the authority granted by §10-22 of this Code and Section 111.5 of the SFPC, the County Fire Marshal or his duly appointed assistant, having satisfied the training requirement specified in VA. CODE ANN. §27-34.2 (Repl. Vol. 2009), may issue a summons for any such violation in the manner authorized by general law.

(e) Nothing in this Article or in the Statewide Fire Prevention Code shall be construed to require the Campbell County Fire Marshal to make periodic inspections to ensure compliance with the SFPC in public buildings, residential care facilities operated by any state agency, assisted living facilities licensed or subject to licensure pursuant to VA. CODE ANN. §63.2-1800 et seq. (Repl. Vol. 2007 and Cum. Supp. 2009), student-residence facilities owned or operated by the public institutions of higher education in the Commonwealth or public schools which heretofore have been subject to periodic inspection by the State Fire Marshal. Responsibility for such periodic inspections shall remain with the State Fire Marshal unless the Board of Supervisors of Campbell County enters into an agreement with the Virginia Department of Fire Programs, or other appropriate agency, providing for cooperative enforcement of the SFPC through such periodic inspections or until such time as the Board of Supervisors provides by ordinance that the Campbell

County Fire Marshal shall assume primary responsibility for such periodic inspections to ensure compliance with the SFPC.

(f) However, the provisions of subsection (e) hereof shall not prohibit the Campbell County Fire Marshal from exercising the authority granted to local fire officials by VA. CODE ANN. §27-98.1 (Repl. Vol. 2009) and to the Campbell County Fire Marshal by §10-11 et seq. of this Code.

(g) The authority granted to the Campbell County Fire Marshal by this Article or by the Statewide Fire Prevention Code shall not be construed to authorize the local Fire Marshal or his assistants to wear or carry firearms.

(h) The Campbell County Fire Marshal shall carry proper identification during the performance of his duties under this Article and/or the Statewide Fire Prevention Code, as required by SFPC Section 109.1.2.

For state law authority, see VA. CODE ANN. §27-98, §27-98.1, and §27-98.2 (Repl. Vol. 2009 and Cum. Supp. 2010), VA. CODE ANN. §27-34.2 (Repl. Vol. 2009), VA. CODE ANN. §9.1-207 (Cum. Supp. 2009) and VA. CODE ANN. §9.1-208 (Cum. Supp. 2009). SFPC §§104.0, 109.1.2, 109.3, 110.1, and 111.5 (2006). See also VA. CODE ANN. §27-61 (Repl. Vol. 2009) and §10-22 of this Code.

Editor's note: For state law as to inspection of certain state-owned, state-operated or state-licensed facilities and enforcement of safety standards therein, see VA. CODE ANN. §9.1-207 (Cum. Supp. 2009), providing that State Fire Marshal is responsible for annual inspections in described facilities "which are not inspected by a local fire marshal." The facilities listed include:

- (i) residential care facilities operated by any state agency;
- (ii) assisted living facilities licensed or subject to licensure pursuant to VA. CODE ANN. §63.2-1800 et seq. that are not inspected by the local fire marshal;
- (iii) student residence facilities owned or operated by a public institution of higher education; and
- (iv) public schools that are not inspected by the local fire marshal.

As noted in the preceding paragraph, the State Fire Marshal is mandated by law to inspect schools, certain assisted living facilities, etc., but is not required to inspect daycare centers. Once a locality appoints a local fire official, the State Fire Marshal no longer inspects daycare centers. Therefore, following a transitional period during which the State Fire Marshal will work with the local fire official, enforcement and inspections as to SFPC provisions applicable to daycare centers in Campbell County will no longer be conducted by the State Fire Marshal. Such responsibility

may be assumed by the County Fire Marshal independently or pursuant to an agreement with the Department of Social Services.

The Board shall comply with the notice requirements and hearing procedures set forth in SFPC §§112.6 through 112.7.1 (2006). Sec. 10-40. Reserved.

Division D. Regulation of Burning.

Sec. 10-41. Burning of woods, brush, etc.

(a) It shall be unlawful for any owner or lessee of land to set fire to, or to procure another to set fire to, any woods, brush, logs, leaves, grass, debris, or other inflammable material upon such land unless he previously has taken all reasonable care and precaution, by having cut and piled the same or carefully cleared around the same, to prevent the spread of such fire to lands other than those owned or leased by him. It shall also be unlawful for any employee of any such owner or lessee of land to set fire to or to procure another to set fire to any woods, brush, logs, leaves, grass, debris, or other inflammable material upon such land unless he has taken similar precautions to prevent the spread of such fire to any other land.

(b) Except as provided in subsection (c) of this section, during the period February 15 through April 30 of each year, even though the precautions required by the foregoing subsection have been taken, it shall be unlawful for any person to set fire to, or to procure another to set fire to, any brush, leaves, grass, debris or field containing dry grass or other inflammable material capable of spreading fire, located in or within three hundred (300) feet of any woodland, brushland, or field containing dry grass or other inflammable material, except between the hours of 4:00 p.m. and 12:00 midnight.

The provisions of this subsection shall not apply to any fires which may be set on federal lands.

(c) Subsection (b) of this section shall not apply to any fire set during the period beginning February 15 through April 30 of each year, if:

1. The fire is set for "prescribed burning" that is conducted in accordance with a "prescription" and managed by a "certified prescribed burn manager" as those terms are defined in VA. CODE ANN. §10.1-1150.1 (Repl. Vol. 2006);

2. The burn is conducted in accordance with VA. CODE ANN. §10.1-1150.4 (Repl. Vol. 2006);

3. The State Forester has, prior to February 1, approved the prescription for the burn; and

4. The burn is being conducted for one of the following purposes: (i) control of exotic and invasive plant species that cannot be accomplished at other times of the year; (ii) wildlife habitat establishment and maintenance that cannot be accomplished at other times of the year; or (iii) management necessary for natural heritage resources.

The State Forester may on the day of any burn planned to be conducted pursuant to this subsection revoke his approval of the prescription for the burn if hazardous fire conditions exist. The State Forester may revoke the certification of any certified prescribed burn manager who violates any provision of this subsection.

(d) Any person who builds a fire in the open air, or uses a fire built by another in the open air, within one hundred, fifty (150) feet of any woodland, brushland or field containing dry grass or other inflammable material, shall totally extinguish the fire before leaving the area and shall not leave the fire unattended.

(e) Any person violating any provisions of this section shall be guilty of a misdemeanor for each separate offense and, upon conviction, shall be fined not more than \$500.00 for each separate offense. If any forest fire originates as a result of the violation by any person of any provision of this section, such person shall, in addition to the above penalty, be liable to the Commonwealth for the full amount of all expenses incurred by the Commonwealth in suppressing such fire. Such amounts shall be recoverable by action brought by the State Forester in the name of the Commonwealth on behalf of the Commonwealth and credited to the Forestry Operations Fund. (9-8-87) (3-21-89)

For state law authority, see VA. CODE ANN. §15.2-1200 (Repl. Vol. 2008). For state law basis, see VA. CODE ANN. §10.1-1142 (Repl. Vol. 2006).

Editor's note.--The authority for this division derives from the State forestry laws, particularly VA. CODE ANN. §10.1-1142 (Repl. Vol. 2006), which are in certain respects stricter than comparable provisions of the Statewide Fire Prevention Code. Ordinances promulgated under this authority are compatible with enforcement of the SFPC in the County.

[THE 1987 AMENDMENT substituted "has taken" for "shall have taken" twice in (a), deleted "shall" following "foregoing paragraph," substituted a comma for "or" preceding "brushland," and inserted "or field containing dry grass or other inflammable material" in (b); and, in (d), rewrote the first sentence, substituted "Commonwealth" for "State" in the second sentence, and deleted "if it has entered into a contract as provided in section 10-46.1 of the Code of Virginia" preceding "for the full amount."]

[THE MARCH 1989 AMENDMENT redesignated former (d) as present (e), added new (d), and, in present (e), substituted "\$500.00" for "\$100.00" in the first sentence, divided the former second sentence into present second and third sentences, substituted "originates" for "shall originate" in the second sentence, deleted "and to the County" following "to the Commonwealth" and "and the County respectively" following "by the

Commonwealth" therein, substituted "Such amounts shall be" for "such amounts to be" in the third sentence and "and credited to the Forestry Operations Fund" for "and by the Board of Supervisors on behalf of the County" at the end.]

[THE MARCH 17, 1997 AMENDMENT substituted "February 15 through April 30" for "beginning March 1 and ending May 15" in (b) and substituted "federal lands and, between February 15 and March 1 of each year, on lands owned by the Virginia Department of Game and Inland Fisheries" for "rights-of-way of railroad companies by their duly authorized employees" in (c).]

[THE DECEMBER 3, 2001 AMENDMENT inserted "Except as provided in (c) of this section" at the beginning of (b); deleted former "(c)" designation of the next paragraph, making it an undesignated second paragraph of (b), and therein substituted "this subsection" for "subsection (b) of this section" and deleted "and, between February 15 and March 1 of each year, on lands owned by the Virginia Department of Game and Inland Fisheries" following "federal lands;" and inserted new (c).]

[THE DECEMBER 4, 2006 AMENDMENT substituted "during the period beginning February 15 through April 30" for "between February 15 and March 1" in the introductory language in subsection (c); and updated state code citations.]

Sec. 10-42. Burning of leaves; limitations.

Leaves originating on the premises of private residences may be burned on those premises; provided, that:

(a) Such burning is done between 11:00 a.m. and 7:00 p.m. and all embers are totally extinguished at the end of this period; except for the period when the preceding section is in effect.

(b) (1) In subdivisions located in residentially-zoned districts Residential-Single Family (R-SF), Residential-Multi Family (R-MF), and Residential-Manufactured Housing (R-MH) lying within the boundaries of the Concord, Sunburst, and Timberlake Election Districts of Campbell County, as those boundaries are described in §7-10 of this Code, the location of burning shall not be less than three hundred feet (300') from any occupied building unless the occupant has given prior written permission.

(2) In all other areas, such burning shall not be less than fifty feet (50') from any structure, nor be allowed to spread to within fifty feet (50') of any structure, except that fires in approved containers may be permitted, provided that such fires are not less than fifteen feet (15') from any structure. For the purposes of this article, an "approved container" shall mean a fire receptacle or container of substantial non-combustible construction designed to minimize the release of firebrands and embers.

(c) To minimize the possibility of contaminant emission from inadvertent fires, at no times shall the fire be unattended. At least one approved on-site fire extinguishing material or equipment, such as dirt, sand, water barrel, garden hose, water truck, or portable fire extinguisher(s) of minimum required rating, shall be available for immediate use.

(d) All burning of leaves permitted under this section shall not be commenced and shall be immediately terminated upon declaration of an alert warning or emergency stage of the air pollution episode when proclaimed by either the executive director of the State Air Pollution Control Board or his designated representative. (9-8-87)

(e) Notwithstanding subsection (d) of this section, the County Fire Marshal may prohibit the burning of leaves or may require the immediate extinguishment of such fire when the burning will be or has become offensive, hazardous, or objectionable due to excessive smoke or offensive odors, or otherwise, due to local circumstances or atmospheric conditions.

(f) All of the above items are subject to the state burning law. (9-17-73, §§1 to 5.)

Editor's note: Due to the adoption of revised residential zoning classifications in Chapter 22 of this Code by the Board of Supervisors on March 5, 2007, internal references in this section to former residential zoning districts R-1 and R-2 were changed editorially to reflect the changes in the zoning district names. Accordingly, "Residential-Single Family (R-SF), Residential-Multi Family (R-MF), and Residential-Manufactured Housing (R-MH)" was substituted for "R-1 and R-2" in (b)(1).

[THE 1987 AMENDMENT substituted "three hundred (300)" for "one hundred" in (b).]

[THE DECEMBER 20, 1999 AMENDMENT redesignated the provisions of subsection (b) as paragraph (1) therein, adding language "In subdivisions... in §7-10 of this Code" at the beginning and substituting "shall not be" for "is not;" added new paragraph (2) in (b); added second sentence in (c); redesignated former (e) as present (f), and inserted new (e).]

outlined in the most recently adopted Memorandum of Agreement adopted by the Campbell County Board of Supervisors.

[THE NOVEMBER 21, 2005 ACT adopted this section.]

Sec. 10-65. Service fee for ambulance transport.

(a) *Service fee for emergency ambulance transport.*

(1) Pursuant to VA. CODE ANN. §32.1-111.14 (Repl. Vol. 2009), as amended, it is hereby determined and declared that the exercise of the powers and duties set forth herein is necessary to assure the provision of adequate and continuing emergency services and to preserve, protect and promote the public health, safety and general welfare.

(2) *Definitions.* The following definitions shall apply to ambulance charges:

“Basic life support (BLS)”: Services shall be medical treatment or procedures provided to a patient as defined by the National Emergency Medical Services (EMS) Educational and Practice Blueprint for the Emergency Medical Technician (EMT)-Basic.

“Advanced life support level 1 (ALS-1)”: Services shall be medical treatment or procedures provided to a patient beyond the scope of an EMT-Basic as defined by the National EMS Education and Practice Blueprint.

“Advanced life support level 2 (ALS-2)”: Services shall be defined as advanced life support (ALS) services provided to a patient including any of the following medical procedures: (i) manual defibrillation/cardioversion, (ii) endotracheal intubation, (iii) central venous line, (iv) cardiac pacing, (v) chest decompression, (vi) surgical airway or (vii) intraosseous line, and the administration of three (3) or more medications.

(3) The schedule of rates for emergency ambulance transport services by the Campbell County emergency medical services system shall be based on a schedule as may be set by resolution by the Campbell County Board of Supervisors from time to time.

(4) The County Board of Supervisors shall adopt appropriate rules and policies for the administration of the charges imposed by this section, including and not limited to, payment standards for those persons who demonstrate economic hardship, as established by this ordinance.

(b) *Billing.*

(1) Campbell County or its agent shall generate a bill for ambulance transports whose point of origin is within the boundaries of Campbell County performed by all ambulances operated by an agency licensed and chartered in Campbell County by the Commonwealth of Virginia and mentioned in §10-60(b) above. Organizations are required to submit information required for the County or its agent to generate a bill for such services. Campbell County will not generate a bill for ambulance transport by organizations mentioned in §10-60(b) above that would be considered humanitarian assistance (meaning activities not undertaken as a result of a call for emergency assistance to the Campbell County Public Safety Communications Center). Due to the fact that patient care information is highly confidential under several state and federal laws, Call Sheets/Patient Care reports will remain the responsibility of the agency responding to individual calls. Information shared under this subsection shall be that information *reasonably necessary* to accomplish the billing process or other arrangement as mutually agreed to by the providing agency and Campbell County.

(2) Campbell County may generate a bill for ambulance service in the primary response areas of organizations mentioned in §10-60(b) above in adjoining localities by separate agreement between Campbell County, the adjoining locality, and the organization.

(3) No organization mentioned in §10-60(b) above that is licensed and chartered in Campbell County by the Commonwealth of Virginia may participate in the County's billing program without the prior consent of the Campbell County Board of Supervisors.

(4) Fees and responsibility for payment. Payment of all charges for ambulance services, including evaluation, treatment or ambulance transport, shall be the responsibility of the patient or the parent, guardian, or other legally responsible party in the case of a minor or an individual deemed incompetent.

(c) Reserved.

(d) *Billing contractor.* Campbell County may contract with a third-party for billing and related services.

(e) Reserved.

(f) *Collections.* Billing and collection policies and services will be established by the Board of Supervisors. No provider mentioned in §10-60(b) above will accept or receive payment directly from a patient or on behalf of a patient for services rendered to a patient.

For state law authority, see VA. CODE ANN. §32.1-111.14 (Repl. Vol. 2009).

Appendices.

Editor's note.--The following three appendices, *Campbell County, Virginia Street Naming Guideline* (Appendix 1), *Campbell County, Virginia Structure Numbering Guide* (Appendix 2), and *Campbell County, Virginia Structure Number Display Guideline* (Appendix 3), were duly adopted by the Campbell County Board of Supervisors on November 6, 1995, effective on December 1, 1995, and are incorporated by reference into Division A of Article IV of this Chapter of the Campbell County Code of 1988. The appendices constitute uncodified ordinances of the County of Campbell which may be amended from time to time by duly adopted ordinance.

APPENDIX 1

CAMPBELL COUNTY, VIRGINIA STREET NAMING GUIDELINE

The purpose of this street naming guideline is to assure the orderly, county-wide naming and of public and private streets, to facilitate the assigning of addresses and enhance the provision of fire and rescue services, law enforcement, mail delivery and the general conduct of business. As used herein, the words "address," "street," and "structure" shall have the definitions indicated in the Street Naming, Signing and Structure Numbering Ordinance, as codified at Division A., Article IV, Chapter 10 of the Campbell County [Virginia] Code of 1988.

1. All proposed names shall be reviewed by the Agent and E-911 Coordinator, and the Agent shall make decisions on names of streets and roads. The Agent shall make recommendations to the Campbell County Planning Commission for the adoption of street/road names which will become the official street/road names for Campbell County.

2. All street/road names chosen shall be compatible with E-911. The goal is to provide an easily distinguishable, simple, and logical method of identifying locations for emergency response, law enforcement, and business purposes. Factors to consider include:

- Number of characters allowed for name
- Origin of names
- Duplications
- Similar spelling and sound alike

3. Names shall not have more than 18 characters including spacing, excluding suffixes. Prefixes that precede a street name and invariably indicate a direction (north, south, etc.) should be avoided. Special characters such as apostrophes, hyphens, periods, or decimals should also be avoided.

4. Exact duplicate names are to be avoided. Although different emergency service areas exist for fire and rescue personnel, the law enforcement serves the entire county.

5. Subsidiary streets: An exception to the no duplication rule may be when a cul-de-sac, lane, or court has the same name as the street to which it is physically attached. "Place," "lane," or "court" are suggested as suffix to differentiate between the streets.

6. Avoid street/road names that are similar or sound very similar-Beach/beechn/peach or sound-alike prefix such as Oakleaf, Oakleigh, Oak Lane. This is to eliminate problems in dispatching to the correct address.

7. Continuity throughout the County is important. A street shall have the same name throughout its entire length. Jags or offsets approximately 200 feet or more in a street may be considered a break in continuity. Where permanent breaks exist along a street, the street may be divided into segments and each segment assigned a different name. Name changes should be made at easily recognized breaks in the street. A street segment shall have only one name. When naming streets, identifying and following the predominant traffic flow shall be more important than simply following an existing route number.

8. Names should: be appropriate for the individual street and the area's nature and character, enhance community image, have historical, physical, aesthetic or local color perspective, avoid the names of living persons and in every case be in good taste.

9. All streets, whether public or private, serving three or more structures or properties shall be assigned a name.

10. Manufactured home parks: The entrance and all streets contained within the park shall be named.

11. Streets extending into Campbell County from other localities may continue with the same name subject to the provisions of these guidelines.

12. The Campbell County Street Name Directory. The current list of all approved street names will be on file with both the Agent and the E-911 Coordinator for public review and inspection. Copies of this list are available at a cost of \$5.00, payable to: Treasurer, Campbell County. (11/6/95)

APPENDIX 2

CAMPBELL COUNTY, VIRGINIA STRUCTURE NUMBERING GUIDE

The purpose of this structure numbering guide is to provide a flexible, uniform method for assigning structure numbers that is appropriate for varied development, allows for full development, facilitates giving and following directions and provides at least a general indication of location. As used herein, the words "address," "street," and "structure" shall have the definitions indicated in the Street Naming, Signing, and Structure Numbering Ordinance, as codified at Division A., Article IV, Chapter 10 of the Campbell County [Virginia] Code of 1988.

1. The system shall be a milepost type based on dividing each mile of street into 1,000 equal parts providing a number every 5.28', (5,280 / 1,000 = 5.28') resulting in 500 numbers on each side of the road 10.56' apart. (2 x 5.28' = 10.56') See drawing following No. 3.

2. Numbers for the first mile shall run from 1 to 999. Numbers during the first tenth of a mile will be a one or two digit number indicating the structure number. Succeeding numbers in

the first mile will be a three digit number. The first digit will indicate tenths of a mile and the last two digits will indicate the structure number. Numbers for subsequent miles will be a four (4) digit number. The first digit or prefix, (1) designates the milepost number, the second tenths of a mile, and the last two digits, the structure number (00 to 99). The first digit or prefix during the second mile shall be "2" and the third, "3" indicating that the structure number is in the second or third mile and so on. See drawing following No. 3.

3. Odd numbers shall be on the right and even numbers on the left when facing the direction of increasing numbers.

4. While there may be exceptions, the intersection of Colonial Highway, Brookneal Highway, and Village Highway in Rustburg is generally the origin of the numbering system for streets running through or from the County. For other streets, the numbering origin shall be a street intersection. Roads are numbered from the origination point nearest to Rustburg then radiating outward from the beginning point. When road origin point is numbered closer than its point of termination, numbering generally runs south to north.

5. Again, while there may be exceptions, numbers shall generally increase towards areas of less development, cul-de-sacs and dead ends.

6. Existing numbering systems in the towns of Altavista and Brookneal shall be incorporated into the new system without change.

7. Generally structures are addressed to the road on which the structure faces, however, in instances where access to the property is not provided on that road, but from a second road, the structure will be addressed to the road which provides access to the property. While a degree of judgment must be used, generally, structure numbers are determined by the point at which access to the structure intersects with the street or road. In the case of structures that front on a private road serving less than three structures, the structures will be addressed to the road to which the private drive attached. Numbering will be computed using the point that the private drive intersects the primary road. The distance, in feet, of this point on the road centerline from the starting point of the road is then divided by 5.28'. The resulting number is then adjusted for the side of the street.

8. When it is appropriate to start the county numbering system from an existing system, such as along streets leaving the Town of Altavista, the last number in the existing system shall be identified and sufficient numbers shall be allowed for development anticipated between the last existing number and the system boundary. The county system shall begin at the boundary, or, if there is no boundary, after the last existing number, with a new number following the existing sequence but rounded up to the next even hundred. For example: if the last existing number is 902,1000 would be a reasonable starting place for the county system as it would allow numbers for additional development on the existing system and still follow a logical sequence in starting the new one.

9. Apartments, suites or similar subdivisions of a structure will be numbered. Single level structures may use a one or two digit number to indicate unit number. Multi-level structures will use a three digit number, the first digit will indicate the level and the second and third digit will indicate the unit number. Structures having access to units from an interior hallway will be numbered with odd unit numbers on the right and even unit numbers on the left. (11/6/95)
