Message:

Nutri-Blend is providing 100 days notice of possible biosolids application sites in Campbell County. This is a notification of all permitted sites and sites that are being processed for permits in the county and is not an indication that we will definitely apply biosolids to these fields. A separate notification was sent on 6/24/09 that covered possible applications from 10/10/09 through 10/10/10. I have included a list of fields and a list of biosolids sources. Please let me know if you have any questions. Thank you.
