Message:

Nutri-Blend is providing 100 days notice of possible biosolids application sites in Campbell County. This is an annual notification of all permitted sites and sites that are being processed for permits in the county and is not an indication that we will definitely apply biosolids to these fields. These sites may be applied to between 10/10/09 and 10/10/10. I have included a list of fields and a list of biosolids sources. Please let me know if you have any questions. Thank you.
